Art Unit: 1644

1. Claims 1-33 are pending.
2. Claims 1-16, 18-21 and 29-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 3-31-05.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 17 and 22-28 stand rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 5,583,046 (Reference A1 on the IDS submitted 12-9-02), as evidenced by Vrtala et al (Reference AR on the IDS of 8-6-02).

Applicant's arguments filed 10-17-05 have been fully considered but are not found persuasive.

Applicant argues that a 35 USC 102 is improper because all of the steps recited in claim 17 are not taught by the '046 patent and using the Vrtala et al., reference is improper to cure the deficiencies.

Claim 17 requires an in vivo diagnostic test comprising administering a multimeric profilin molecule. The '046 patent teaches administering Bet v2, a profilin. The reference is silent as to whether said Bet v2 is multimeric. Vrtala recognized that when Bet v2 is placed in solution it naturally polymerizes. The Vrtala et al., reference is only relied upon to characterize an already described process.

Applicant argues the Examiner has not meant the inherency requirement reject claim 25.

Since Applicant has amended the claim by removing "that novel sequences" and since the fragments are recited with comprising language, the inherency argument is moot since it reads upon the full length Bet v2 prior art protein.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1644

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
